MARTIAL LAW AT PRESENT PATROL OF ARMED GUARDS

FULL EXTENT.

Lisbon, Dec. 22.—The result of the present political crisis here may not only determine whether a new and better order of public administration is to prevail in Portugal, but, remote as such a change appears to the ordinary observer, whether the whole monarchical regime shall not give way to a republican form of government. The Republicans, small as is the influence they exercise at present under the restricted suffrage which the people enjoy, believe that Franco, by exposing the practices of the monarchist parties, has administered a blow to the prestige of the king and the monarchy from which it can never recover, and made a republic an near possibility.

graft to their clients, the scandal of the the public treasury to the royal family, the arbitrary manner in which these advances have been "liquidated" by decree, and lastly, the alleged "repression" of the "dictatorship." Their plan is to push the issue as soon as the restoration of "legality" permits them to open a campaign in the newspapers, and later, when the cortes again assembles, to play their trump card.

Inable to Suppress Riot

Will Demand Abdication.

To supplement the request of the governor, a communication has gone to him from Sheriff Ingalls of this county. Benjamin Rosenthal, chairman of the county commissioners, and Commissioner Spinker. This statement to the president asserts that the county officials will be unable to handle the situation after the departure of the troops, should trouble ensured the masses will remain absolutely indifferent to the mutations of politics until a system of general education awakens their consciences to a demand for broader political rights.

The sheriff is reorganizing his force of deputies and adding thereto. The newly appointed deputies are in the pay of the Goldfield Mine Owners' association and have begun already to patrol the mines, armed with shotguns and automatic revolvers.

Dictator Powerful. This will be nothing else than a motion

The fate of Joao France, the dictator, who as a monarchist professes to be seeking the political and financial regeneration of the country, will be well worth watching. Franco is a man of 55, and practically his whole life has been spent in politics. Regenerator and progres-sionist by turn, he headed a split from each of the old parties and previous to his present accession to power was a member of two cabinets. When he began his present war against the old parties as the leader of what he called a new "Liberal Progressist" party, he made public proclamation of his "confession and repentance" "for his political past."

His charges against the old parties and resumming of the "distractorship" turned assumption of the "dictatorship" turned the hands of the politicians of every shade of opinion against him.

Feared and Hated.

The old parties fear and hate him, the Republicans joining in the demonstration because he has arbitrarily stopped their Liberal Appropriations for the Many agitation. The only thing his enemies do not reproach him with is a desire to line his own pockets. His wealth excludes such a motive and as this motive seems to have been the end and aim of things

These caskets in the morning will be removed to a big tent to be viewed and identified by friends. The rescuers are now at the "swamp heading," about one and one-half miles from the mouth, from which many entries diverge.

POWDER MILL BLOWS UP.

Nanaimo, B. C., Dec. 22.—The Hamilton Powder company's works blew up this morning at Departure Bay, four miles from here. The loss is \$40,000. No one was killed or injured. The nearest building was the manager's house, a mile away. Its windows were smashed and many panes of glass were broken in Nanaimo.

Joliet, Ill., Dec. 22.—Practically the entire force of the steel mills here will have a vacation during holiday week, nearly all departments closing until Jan. 1. Resumption at that date is promised. Nearly 3,000 men will be affected.

Acting President Mahoney of the Western Federation of Miners said after going over the situation with officers of the local Miners' union that the Western Federation of Miners would uphold the local in all that it had previously done, and will stand squarely behind it in its future actions. The question of the city's responsibility for the children has now been raised by the Socialists in the municipal council, who propose that the council should in future undertake the task.
